WORKSHOP ITEMS

PLAN FOR WATER MATRIX AND PROCESS CHECK-IN

Jennifer Hanson, General Manager, provided a process check-in:

- The final strategic planning document is scheduled to be brought back in January
- January Plan for Water meeting to include Stage 8: Demand, to review some of the demand assumptions before Stage 7: Hydrology and Hydrography

Public Comment:

- None

PLAN FOR WATER WORKSHOP - STAGE 6: BASIS FOR PLAN FOR WATER

Jennifer Hanson, General Manager, presented the item and facilitated the workshop.

- Planning Horizon Determination:
 - Length of time, considerations, and options
 - Board Consensus reached for a 50-year planning horizon

- Frequency of update
 - Regular updates help to refine and validate assumptions and are useful for capital planning and rate setting
 - Board consensus reached for full updates every 5 years
 - Board consensus reached for annual data updates for some information
- Use of Plan
 - Master Planning
 - 5-year and annual CIP
 - UWMO and AWMO
 - Informs long-term financial planning
 - Informs operations
- Responsibility for Plan
 - Board
 - Staff
 - Board Policy – Board consensus reached to develop policy
- Facts vs. Assumptions
 - Physical processes (runoff, hydroclimatic variability)
 - Future demand
 - Future operating criteria (FERC, VA's)
 - Reservoir conditions
 - Storage management (surplus)

Board discussion ensued regarding demand, fire protection, drought, and looking at agriculture water months, creating a Board policy for the plan.

Public Comment:

- Barbara Bashall, Nevada County Contractors' Association:
 - Provided positive feedback from involvement working on the Regional Transportation Plan, developed with a 20-25 year horizon
- Peter Burns, member of the public:
 - Asked if the model outputs will show or express the level of uncertainty of a given output or timeframe
 - The quality of an assumption informs the level of uncertainty of the result based on the assumption
- Marco Bell, member of the public
 - The model handles demand requirements from a physically based perspective and land use such as crop types
- Gus Tolley, with Geo-Logic Associates and resident of Division 2:
 - Spoke about the Sustainable Groundwater Management Act (SGMA) with a similar framework put in place by the State of California, which has a 40-year horizon, 5-year required updates, and annual report updates
- Peter VanZant, member of the public:
 - Inquired if 5- year updates will require consultants
 - Asked why Ag Water Management Plan is not used

December 13, 2022

- Otis Wollan, member of the public, commented on the following:
 - o Proactive drought policy, conservation, and criteria to identify commercial agriculture
 - o Land management following the River Fire
 - o Brief submitted to the administrative hearing officer at the State Board

- Traci Sheehan, Foothills Water Network:
 - o Provided positive feedback on bookends and bringing this discussion forward at this point in the planning process

- Amanda Hixson, Sierra Harvest Farm Institute Director:
 - o Asked why the Ag Water Management plan is not used and it was because it is not updated frequently

MEETING ADJOURNED at 5:09 p.m., to reconvene in regular session on Wednesday, December 14, 2022, at 9:00 a.m. at the District's Business Center located at 1036 West Main Street, Grass Valley, California.
