Subject: Plan for Water (PFW) Scheduling and the PFW Report Status

Greetings NID and PFW Interested Parties,

Upon my recent review of the Plan For Water (PFW) documentation, I have found several things I now request answers to:

- A. There are references to a Plan For Water Report. One such reference is given in https://www.nidwater.com/files/82a082f10/20230424_January_Stakeholder_Questions_Followup.pdf

Filename: 20230424_January Stakeholder Questions Followup.pdf

Re: Response to March 9, 2023, Follow-up to Plan for Water (PFW) Questions and NID Responses

“Response: As stated in the last stakeholder meeting, the PFW glossary will be finalized when the PFW Report is complete. This will ensure that the words and definitions utilized are relevant to the final report.”

I am requesting the following information regarding the Plan For Water (PFW) Report:

1. Who is the principal author and person in responsible charge of the planning content which will comprise the PFW Report?
2. Will the PFW Report provide the technical documentation to support the problem identifications, conclusions, and recommendations presented at the PFW meetings?
3. What is the status of the planned release of the PFW Report to the public (e.g., draft, preliminary, public review copy, recommended for adoption, final, etc.)?
4. Will the public be provided a “public review copy” and a period to submit questions, comments, and concerns?
5. When would the public expect to be provided a copy, what status will the PFW Report bear when released, and how long of a period will the comment period be if provided?
6. Is there an outline (Table of Contents) of the PFW Report content available now to share with the public?
7. Will the NID Board of Directors adopt the PFW Report through a formal resolution process? If yes, what is the likely Board Meeting date? (normal or special meeting planned?)
8. Will PFW interested stakeholders be provided a schedule for the PFW completion or will they have to reply on the scheduling and timing of the normal or special NID Board Meetings?

9. Will NID restore the PWF documentation links for the first two “2018 Community Workshop Meeting Notes” on Dec. 1st & 10th, 2018 listed under “Other” at <https://www.nidwater.com/plan-for-water-documents-5fbb459two?>
10. Will NID please send this email out through the PFW email stakeholder list with NID’s Responses to increase collaborative situational awareness as well as post it and the response on the PFW website content?

I look forward to the answers and actions to these pertinent questions as the close of the PFW process nears.

Sincerely,

H. Michael Ross
