

NEVADA IRRIGATION DISTRICT

STANDARD DETAILS TREATED WATER SYSTEM

Preface

The Developer must comply with the District's Development Standards, which include these Standard Details as an augmentation to the Standard Specifications. The Developer is also responsible for preparation of any remaining details necessary for a complete set of contract documents.

These Standard Details are for use by developers and their engineers for expansion of the District's treated water system and may not be put to private use without prior written approval.

These Standard Details may not be altered, qualified, or superseded without prior written approval.

Index to Details

Approved/Revision Date

SD1	Water Main, Service Line, and Lateral Trench Details	2-15-08
SD3	Thrust Blocks	3-9-94
SD4	Locating Wire	3-9-94
SD5	Main Line Valve Assembly	5-7-96
SD6	3/4" & 1" Air Release Valve Assembly	5-7-96
SD7	2" Blowoff Assembly - Type A & B	11-4-99
SD8	Fire Hydrant Assembly	6-10-03
SD9	Guide Marker & Valve Operating Shaft Extension	3-9-94
SD10	Meter Box Location	12-12-07
SD11	5/8", 3/4" & 1" Meter Assembly - Single and Double	2-7-08
SD12	4" or Larger Blowoff Assembly - Type A or B	1-31-01
SD13	Private Fire Service Single Detector Check	7-23-08
SD13RP	Private Fire Service - Reduced Pressure	7-23-08
SD14	Private Fire Service - Double Detector Check	7-23-08
SD15	1-1/2 " & 2" Meter Assembly	2-8-08
SD16	Barrier Posts	7-23-08
SD17	Canal Utility Crossing (under)	7-29-08
SD18	Canal Utility Crossing (over)	7-23-08
SD19	Canal Sewer Crossing (under)	7-23-08
SD20	Canal Sewer Crossing (over)	7-23-08
SD21	Canal Culvert Installation	6-11-08
SD22	End of Main with Future Extension	7-23-08
SD24	Canal Storm Water Crossing (overshot)	8-26-09
SD25	Canal Storm Water Crossing (undershot)	8-26-09
