BENEFIT AND COMPENSATION PLAN

PREAMBLE

1. The NEVADA IRRIGATION DISTRICT is a public agency formed and existing under the laws of the State of California (Water Code, Division 11).
2. This document, and the policies stated in it, constitutes a description of the compensation, as well as other terms and conditions of employment, for unrepresented employees (except managers). This document does not create a binding agreement between the District and the employees. It is simply a statement of policy subject to change or modification at any time and at the sole discretion of the Board of Directors.

ARTICLE 1

EMPLOYEE STATUS

1. A "Regular Employee" is an employee who has completed his/her probationary period and fills a regularly established classification.
2. There are three (3) specific designations that define a "Probationary Employee." The following definitions explain the different types of probationary employees.
 - a) A "Probationary Employee" is defined as a newly hired employee in a classification that has been regularly established.
 - b) A "Promotional Probationary Employee" is defined as an employee promoted into a new classification that is at least 5% above the salary range of their current classification.
 - c) A "Transferred Probationary Employee" is an employee who voluntarily transfers into a regularly established classification.
 - d) An employee who has not completed his or her initial six-month probationary period shall not be permitted to apply for an open position unless there are no other internal candidates for the position, or none of the other internal candidates for the position have been selected, and the vacancy has been opened up to external candidates. In the event a probationary employee is selected to fill the position, the probationary employee will be required to complete a full probationary period in the new position (which will not be reduced by time spent as a probationary employee in the former position).
 - e) A non-probationary employee who already has completed his or her initial six-month probationary period, and successfully bids on an open position, will be required to complete a new 90-day probationary period in the new position. If such employee has more than five years of service with the District, the employee will be entitled to return to his or her former position during the 90-day probationary period.
 - f) In the case of a new outside hire, upon completion of six (6) months' continuous service with the District, a probationary employee will be given the status of a regular employee. During this probationary period, the employee may be terminated without cause. During the probationary period, new hires will be eligible for most District benefits herein, including observed holidays and vacation, as specified in District policies. New employees are eligible for vacation after six (6) months of employment. A probationary employee will receive no less than the minimum rate of pay for the job.
3. A "Regular Part-time Employee" is an employee who is hired by the District to fill a regularly established classification that warrants year-round employment at no more than thirty (30) hours per week and no less than twenty (20) hours per week.
4. A probationary "Part-time Employee" will receive not less than the minimum hourly rate paid to a full-time employee for the same job. Upon completion of six (6) months' continuous service with the District, the Part-time employee shall be given the status of "Regular Part-time." During the probationary period of six (6) months, the probationary Part-time employee may be terminated without cause.

5. A "Temporary Worker" is defined as a worker who is hired on a temporary basis to perform seasonal work and/or work on special projects.
6. An Exempt Employee is an employee who has positional duties and responsibilities and a level of decision making authority that is exempt from the overtime provisions of the Fair Labor Standards Act (FLSA).

Not later than sixty (60) calendar days after this Plan is ratified by the District's Board of Directors, the District will initiate efforts to retain a suitable consultant to perform a compensation survey designed to compare the wage rates and benefits (i.e. total compensation) paid by the District to its employees with wage rates and benefits paid by reasonably comparable irrigation districts or similar agencies - that operate under similar circumstances as the District - for the same or comparable work. The decision as to which agencies will be deemed comparable will be made by the District with input from the consultant.
