

NOTICE OF SCHEDULED WORK

**GASTON DRIVE / SPANISH LANE / SADIE D DRIVE /
LAKE LANE / BALTIC CLOSE**

Water Distribution System Replacement Project

As part of Nevada Irrigation District's efforts to maintain water quality and reliability, it will be replacing the water distribution system in your area over the next few years.

The first phase was complete last October 2012. For the second phase, NID crews will be replacing $\pm 6,300$ feet of water main, as well as service lines (from the main to individual meters) and fire hydrant laterals. This work will also include the installation of new dry barrel fire hydrants that will have a higher flow capacity.

The area of work includes the entire distances of Gaston Drive, Spanish Lane, Sadie D Drive, Lake Lane and Baltic Close (see map below). Residents will experience scheduled water outages, of which they will be notified (date and time) two days in advance via "door hangers." The work will also impact traffic flows along these streets. Travelers should anticipate intermittent delays at times from 10 to 15 minutes, but detours around the construction will be available.

The work is expected to begin on April 1, 2013, or shortly thereafter, and be completed by September 30, 2013, and will take place Mondays through Thursdays from 7:00 am to 5:00 pm.

Your patience throughout this process will be greatly appreciated. Please feel free to contact Tim Nunnink, NID Maintenance Superintendent, at (530) 273-6185 Ext. 202 with any questions or concerns. Thank you.
