

NEVADA IRRIGATION DISTRICT

METER READER I METER READER II Range A55/A75 – BOD 10/10/12

*Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.*

DEFINITION

To perform a variety of duties related to reading, recording, and repairing water meters and related equipment; to report water meter related equipment issues and improper use; disconnect and reconnect water service; and to perform other duties as assigned.

DISTINGUISHING CHARACTERISTICS

Meter Reader I: This is the entry level class in the Meter Reader series. Positions in this class typically have little or no directly related work experience. The Meter Reader I class is distinguished from the II level by the performance of less than the full range of duties assigned to the II level. Incumbents work under immediate supervision while learning job tasks, progressing to general supervision as procedures and processes of assigned area of responsibility are learned.

Meter Reader II: This is the journey level class in the Meter Reader series and is distinguished from the I level by the assignment of the full range of duties. Employees at this level receive only occasional instruction or assistance as new, unusual or unique situations arise and are fully aware of the operating procedures and policies within the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the I level.

SUPERVISION RECEIVED AND EXERCISED

Meter Reader I

Receives immediate supervision from the Customer Account Administrator.

Meter Reader II

Receives general supervision from the Customer Account Administrator.
